

hp scrim banner

data sheet

A 15-mil, matte opaque PVC banner paper comprised of tear-resistant polyester fabric embedded between two white vinyl layers. A special ink-receptive coating makes the paper water-resistant and gives it good color brilliance and edge definition with UV pigment-based inks.

target customers

- sign shops
- print service providers
- quick printers

applications

- full-color indoor and outdoor advertising
- banners, trade show and point-of-purchase signs

user needs

- weather-resistance
- suitable for hem-stitching and sealing
- excellent handling characteristics
- highly durable

printer & ink compatibility

hp designjet 5000 series printers	hp 83 UV and hp 81 dye ink supplies
hp designjet 3000CP series	hp designjet cp ink systems, hp designjet cp ink systems UV
hp designjet 2000CP series	hp designjet cp ink systems, hp designjet cp ink systems UV

mounting and laminating

mounting	yes (can be hem-stitched; suitable for metal grommets)
laminating	yes (liquid lamination recommended)

product specifications

weight	486 g/m ² ISO 536
thickness/caliper	15-mil / 380μ ISO 534
tensile strength warp	> 1000 N/50mm DIN 53354
tear strength warp	> 60 N DIN 53383
country of origin	Switzerland

performance specifications

operating temperature.....	10-25°C
operating humidity.....	35-65% RH
lightfastness with dye ink	8-17 months indoor
lightfastness with UV ink	30 years indoor; 17 months outdoor
outdoor durability	minimum 1 month
shelf life	6 months after receipt from HP
